

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT No. 249

11302 TANNER ROAD
HOUSTON, TEXAS 77041
PHONE (832) 209-5000
FAX (832) 209-5015

NOTICE TO ALL CUSTOMERS

Flushing of the District's water lines will be performed on

Monday, March 3, 2008

The flushing will continue until all of the water lines have been flushed. The flushing will commence at 8:00 A.M. and continue during normal working hours. During this flushing program you may experience some discoloration in the water. This discoloration is caused by sediment in the water mains that is being flushed out of the system.

You should be *extremely careful* during the period of flushing to make sure the water is clear prior to washing clothes. The adding of chlorine bleach while washing clothes could make any discoloration problems worse.

The District will not be responsible for damages to clothing, etc.

Should you experience discoloration of the water at any time after the flushing program has been completed, please do not hesitate to contact the Service Department at (713) 405-1760

The District's operator, Southwest Water Company,
is the only party authorized to work on the District's facilities.
